DIRECTOR'S MEMORANDUM NO. 36

Supplement 1

Inspection of Commodities Sold or Transferred to Other Agencies

Director's Memorandum No. 36, Section 4, places the responsibility in the Transportation and Warehousing Branch to arrange for the inspection of commodities in certain warehouses. This Section is revised to read as follows:

"Commodities stored at the Newark Tidewater Terminal, Newark, New Jersey; at Pier D, Erie Railroad, Weehawken, New Jersey; and at the Great Lakes Transit Company at Buffalo, New York, have been purchased for military use and are still in our possession. The responsibility for periodic examination of the products in these houses rests with the commodity branches. These branches shall inspect these products as often as they think necessary to prevent deterioration, and shall perform such reconditioning as is required, notifying the Transportation and Warehousing Branch of damaged lots and action taken. The commodity branches should obtain any needed information on inventory or other necessary assistance from the Transportation and Warehousing Branch."

Roy F. Fendrickson
Director
